

# QuickBooks Payroll

"I was so amazed at how **easy it was to set up and run my first payroll**. Today I could not live without it. Without the email reminders for when payroll taxes or quarterlies are due, I would always be behind and paying penalties. With the email reminders, I have **not had one penalty in 7 years!** I have both salaried and hourly employees but can do **payroll in less than 10 minutes.**"

**Brad Cranston**

PostNet Business Owner
